METRO PACIFIC INVESTMENTS CORPORATION

NINE MONTHS 2007 CORE NET INCOME OF P142.4 MILLION VS RESTATED NET LOSS OF P60.8 MILLION IN 2006 REPORTED NET INCOME OF P235.6 MILLION VS RESTATED NET LOSS OF P590.9 MILLION LAST YEAR MAYNILAD NET INCOME IMPROVES BY 15% TO P1.140 BILLION LANDCO NET INCOME RISES TO P135.4 MILLION

- Core Net Income of Pesos 142.4 million for the nine month period ended 30th September 2007 against a
 restated Core Net Loss of Pesos 60.8 million for the same period last year.
- Reported Net Income for the period of Pesos 235.6 million versus last year's restated reported Net Loss of Pesos 590.9 million.
- Maynilad Net Profit for the period at Pesos 1.140 billion versus Pesos 992.3 million last year, up 15%
- Landco Net Profit of Pesos 135.4 million versus a restated loss of Pesos 113.9 million last year.

MANILA CITY, PHILIPPINES, 13 NOVEMBER 2007 – Metro Pacific Investments Corporation ("MPIC") (PSE: MPI) today reported core net income of Pesos 142.4 million for the first three quarters of 2007, compared with a restated core net loss of Pesos 60.8 million for the same period last year. Together with non-recurring income of Pesos 93.2 million, reported net income stood at Pesos 235.6 million for the period, against a restated net loss of Pesos 590.9 million for 2006.

The significant turnaround in core net income for the period is mainly due to the strong showing of MPIC's two operating companies, Maynilad Water Services, Inc. ("Maynilad") and Landco Pacific Corporation ("Landco"). Maynilad reported net income of Pesos 1.140 billion in the first three quarters of 2007 and contributed Pesos 453.5 million of core net income to MPIC for the period, representing MPIC's net attributable equity interest in Maynilad. Landco's results for the first nine months showed a net income of Pesos 135.4 million compared with a restated loss of Pesos 113.9 million last year. Landco provided Pesos 69.7 million in profit contribution to MPIC, compared with a loss of Pesos 58.1 million in 2006.

"Maynilad continues to improve in spite of delays in exiting its court-administered rehabilitation program. We are eagerly awaiting the ruling of the rehab judge to allow us to roll-out the 26 billion Pesos in network improvements that will in turn allow Maynilad's revenues to improve dramatically." stated Jose Ma. K. Lim, MPIC's President and Chief Executive Officer.

"Landco is experiencing brisk sales of Tribeca, its first Metro Manila Project, and together with the continued strong uptake of its residential resort and hometown developments, will contribute significantly to MPIC's core net income on an ongoing basis. We foresee improved performance for both Maynilad and Landco for the balance of the year," stated Lim.

Maynilad: Continued Improvement in Performance Indicators

Maynilad reported net income of Pesos 1.140 billion for the period compared with Pesos 992.3 million last year. This result is net of additional tax provisions amounting to Pesos 110.9 million which have been accrued starting August this year. The increase in net income for the period can be attributed to the improvement in Maynilad's key performance indicators across-the-board. Specifically, non-revenue water has been reduced to 66% as of end-September 2007, from a 2006 average of 68%. Total volume of billed water also improved significantly, rising 10% to 214.4 million cubic meters for the first 3 quarters of 2007 from 195.6 million cubic meters in the same period last year. Total billed customers also increased to 700,060 as of end-September this year, compared with 662,305 as of end-September last year, a growth of 6%.

Maynilad's contribution to MPIC was reduced by financing charges and operating expenses incurred by DMCI-MPIC parent company amounting to Pesos 459.5 million. The financing charges relate to the US\$192 million loans availed from First Pacific Company Limited and Ashmore Investment Management Limited to fund the cash deposit securing the Stand-by Letters of Credit required for the acquisition of Maynilad. These were partially offset by financing income from the same cash deposits. MPIC's proportionate share in DMCI-MPIC's financing and operating expense charges was Pesos 229.7 million.

On a net basis, Maynilad's contribution from operations to MPIC's core net income was P453.5 million.

The acquisition of Maynilad was completed in January 2007 and is proportionally consolidated by MPIC only this year.

Landco: The Leader in Leisure Estates

Landco's net income for the period stood at Pesos 135.4 million versus last year's restated loss of P113.9 million as revenues jumped 177% to Pesos 1.318 billion from last year's Pesos 476.6 million. The success of its residential resort projects -- the Ponderosa Leisure Farms, Amara en Terrazas, Playa Calatagan, Leisure Farms, Terrazas de Punta Fuego and Montelago -- contributed significantly to the increase in revenues.

With the launch of new projects during the year, Landco's operating expenses rose to Pesos 553.8 million from last year's Pesos 462.2 million. On the other hand, net financing income for the period was Pesos 87.2 million compared with only Pesos 2.4 million last year. This increase came mainly from the accretion of significantly higher levels of installment receivables.

Landco's reported numbers last year were restated to reflect the change in revenue recognition policy from the installment method to percentage of completion.

Landco's net contribution to MPIC's core net income for the period was Pesos 69.0 million.

Medical Doctors Inc.: The Healthcare Leader Builds Its Future

In May of this year, MPIC subscribed to Pesos 750.0 million in Convertible Subordinated Notes issued by Medical Doctors Inc. ("MDI"), which owns and operates the Makati Medical Center ("Makati Medical"). On June 7 2007, MPIC converted Pesos 120.0 million of such Convertible Notes into common shares of MDI, representing an 8% equity ownership in MDI. When the Notes are fully converted, MPIC will own approximately 33% of MDI.

Makati Medical is currently in the midst of its multi-year Facilities Improvement Program, financed by the issuance of these Convertible Notes aggregating Pesos 961.0 million and by internal cash resources. This redevelopment, renovation, expansion and upgrade program will establish Makati Medical as an international-standard healthcare facility and improve further its competitive and brand equity position. Despite the renovation work ongoing within the existing hospital, and the construction work in what was formerly the adjacent open parking lot, Makati Medical continues to maintain the high standard of healthcare it has become known for.

Outlook for 2007

"With Maynilad on track to reduce its non-revenue water down to around 59% by year-end, Landco looking to realize about Pesos 200 million in net income for the year, and Makati Medical expected to report another record year of profitability, 2007 looks to be the turnaround year for Metro Pacific," said Manuel V. Pangilinan, MPIC's Chairman.

"We will continue to consider investments in infrastructure and healthcare, as well as look into opportunities in tourism and natural resources. For the coming years, one could say that the business of MPIC will be oriented towards 'back to basics', resource-based activities," concluded Pangilinan.

PRESS RELEASE

INDOFCOD'S NINE MONTHS FINANCIAL RESULTS ENDED SEPTEMBER 30, 2007

- CONSOLIDATED NET SALES GREW 22.7%
- GROSS AND OPERATING PROFIT UP 14.3% AND 18.3%
- NET INCOME GREW 35.0% TO RP683.3 BILLION
- CORE PROFIT INCREASED 24.8% TO Rp704.6 BILLION

Jakarta, October 31, 2007 – PT Indofood Sukses Makmur Tbk ("Indofood") today announced its financial results for the nine-month period ended September 30, 2007, reporting consolidated net sales of Rp19.67 trillion, a 22.7% increase compared to Rp16.04 trillion for the same period last year.

Anthoni Salim, the President Director and Chief Executive Officer of Indofood commented: "For the last few months the food industry globally has been greatly impacted by the unprecedented increase of raw material and fuel costs. Despite these challenges, Indofood is able to deliver double digit growth in gross and operating profit through the combination of sales volume growth in most of the divisions, the ability to adjust the selling prices of some of the products and continuing cost efficiency programs. The Consumer Branded Products group continues to be negatively impacted by the rising input costs. However, our integrated business model with four streamlined strategic business groups enables us to deliver exemplary results under tough market conditions".

Gross profit increased 14.3% to Rp4.32 trillion from Rp3.78 trillion, while gross margin declined to 21.9% from 23.5%. Operating profit grew 18.3% to Rp1.74 trillion from Rp1.47 trillion. Nonetheless, operating margin declined to 8.8% from 9.2%.

Net profit continued to improve to Rp683.3 billion from Rp506.1 billion, principally due to the improvement in operating profit as well as reduction in net interest expense. Core profit increased 24.8% to Rp704.6 billion from Rp564.4 billion.

Revenue and Gross Margin: The Group delivered another strong quarter in term of revenue and profit. Overall revenue grew by 39.2% to Rp1,579 billion in Q3 2007 boosted by higher Crude Palm Oll ("CPO") and edible oil selling prices. Overall gross profit mergin improved from 30.6% in Q3 2006 to 32.7% in Q3 2007 largely attributed to increase in selling prices and continued improvement in commodity division. For the first 9 months in 2007, the Group's revenue increased by 49.1% against same period last year and gross profit margin improved from 24.0% to 27.5%.

Plantation division recorded encouraging results for three consecutive quarters, revenue saw an increase of 47.0% from Rp414 billion in Q3 2006 to Rp608 billion in Q3 2007. Of these sales, Rp81 billion in Q3 2007 (vs. Rp47 billion in Q3 2006) were to external parties, mainly contributed from sales of Palm Kernel (PK) and CPO. Higher average salling price of PK and CPO explained for the positive results for this division. The favorable CPO and PK prices also contributed to 51.4% revenue growth in first 9 months of 2007.

Cooking oil and fats division's external revenue improved by 40.2% from Rp937 billion in Q3 2006 to Rp1,313 billion in Q3 2007 supported by increase in selling prices. For the first 9 months of 2007, this division registered a revenue growth of 47.2%.

Commodities division registered a moderate increase in externel revenue of 22.0% from Rp151 billion in Q3 2006 to Rp185 billion in Q3 2007. The revenue growth was largely attributable to the increase in the average selling price of palm oil-based and copra-based products. On year-to-date basis, this division's revenue grew by 52.8%.

Gain arising from changes in fair values of biological assets. It is the intention of the group to perform biological assets valuation on half-yearly basis unless there are significant changes during the quarter.

Biological assets comprise oil palm plantations and rubber plantations. Mature oil palm trees produce fresh fruit bunches ("FFB"), which are used to produce CPO and PK. The fair values of oil palm plantations as at 30 September 2007 are determined by using the discounted future cash flows of the underlying plantations. The expected future cash flows of the oil palm plantations are determined using the forecast market price of FFE which is targety dependent on the projected selling prices of CPO and PKO in the market.

 Profit from Operations for Q3 2007 Increased by 82.7% or Rp193 billion compared to same period last year. The impressive growth arose from a higher gross profit of Rp170 billion and lower G&A expenses in Q3 2007. The group also recorded a foreign exchange gain of approximately Rp14 billion on US denominated cash balances due to weakening of Indonesia Ruplah.

Net Profit After Tax of the Group increased by 109.4% In Q3 2007 against same period last year due to higher gross profit, higher income from time deposits and lower interest expenses as part of the share placement proceeds were used to repay interest bearing debts. On year-to-date basis, net profit after tax was 70.1% higher than the same period last year.

Review of Financial Position

The group's net assets as of 30 September 2007 were Rp6.6 trillion compared to Rp3.5 trillion in Dec 2006, largely contributed by cash proceeds from the new shares placement in mid February 2007 and positive cash flow generated from the operations.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

As announced by the Company on 30 October 2007, the acquisition by its 90 per cent.-owned subsidiary, PT Salim Ivomas Pratama ("PT SIMP") of (I) 439,200,000 shares ("Lonsum Shares") in PT Perusahaan Perkebunan London Sumatra Indonesia Tbk ("Lonsum") from First Durango Singapore Pie. Ltd. and (II) 60,895,000 Lonsum Shares from certain funds that have appointed, directly or indirectly, Ashmore investment Management Limited as their investment manager (the "Ashmore Funds") (the "FDS and Ashmore Acquisition"), was completed on 30 October 2007. Following the completion of the FDS and Ashmore Acquisition, PT SIMP has a shareholding interest of approximately 45.7% of the issued share capital of Lonsum, which is now an associated company of the Company.

The completion of the acquisition by PT SIMP from the Ashmore Funds of the mandatory convertible notes due 2009 issued by Lonsum which are convertible into 269,343,500 Lonsum Shares (the "MCNs") and the conversion of the MCNs thereafter, is expected to take place on or around 31 October 2007. Thereupon, PT SIMP will have a shareholding interest of approximately 56.4% of the enlarged issued share capital of Lonsum (the "Enlarged Capital") and Lonsum will accordingly become a subsidiary of the Company.

As stated in the announcement dated 30 October 2007, the acquisition by the Company from Mr Eddy Sarlaatmadja of 109,521,000 Lonsum Shares, representing approximately 8.0% of the Enlarged Capital will take place on 2 November 2007.

Following the completion of the FDS and Ashmore Acquisition, a tender offer by PT SIMP for the remaining Lonsum Shares (amounting to approximately 35.6% of the Enlarged Capital) at the price of Rp6,900 per Lonsum Share as determined based on Item 8.(c) of BAPEPAM-LK Rule No. IX.H.1, will have to be made. Piease refer to further announcements which will be issued by the Company.

For further information on the acquisition, please refer to the Company's circular to shareholders dated 2 October 2007 and the announcement by the Company dated 30 October 2007, which are available on www.sgx.com.

In addition to the effects of the Proposed Acquisition to the Group, the fundamentals for the palm oil sector remain positive with the expected increase in global demand due to i) increasing awareness of the dietary benefits of palm oil; ii) as feedstock for blo-diesel usage; and iii) increasing demand mainly from China and India due to the increasing population and income growth.
